· PRESS RELEASE ·

Welcome to my first garden book

Garden Friends, Denmark

I have been looking forward to sharing some of the many inspirational Danish gardens that I have experienced with friends and family over the past couple of years. In my job as a photographer specializing in flowers and plants, I have visited countless gardens over the years. However, there are always those gardens that stand out and leave a lasting impression. Gardens where the mood and atmosphere get completely under your skin and you remember them long after leaving. These are the gardens I have revisited when making this book. You will also meet the people behind the gardens and hear their thoughts and dreams about their gardens.

I hope you will enjoy my new book and consider writing a review.

Best wishes
Mette Krull

Garden Friends, Denmark
